The music is nice, easy enough for a later beginner or intermediate pianist, and tasteful arrangements. The kindle version, however, is too small to use at the piano. I tried printing it out, but the pages were fuzzy. I wish I had bought the real book.0 of 0 people found the following review helpful. sound of musicBy Delores Visherthis is good for beginners, and I am more than that,, will try and order again for more advanced, but good selection2 of 2 people found the following review helpful. Easy to playBy CustomerDoes not include all of the songs from the movie but has most. Bass clef arrangements are not always pleasing to the ear but that's an easy fix by playing chords instead of written

bass clef notes in those areas that sound less than pleasing. I'm an advanced beginner and I'm enjoying learning and playing the songs.

(Easy Piano Vocal Selections). Easy piano arrangements of 8 popular songs from the musical masterpiece, including: Climb Ev'ry Mountain * Do-Re-Mi * Edelweiss * Maria * My Favorite Things * Sixteen Going on Seventeen * So Long, Farewell * The Sound of Music.
