Cain Marko : The Square Root of 10: Created For Mathematicians, Math Teachers and Number Freaks before purchasing it in order to gage whether or not it would be worth my time, and all praised The Square Root of 10: Created For Mathematicians, Math Teachers and Number Freaks:

"The Square Root of 10" is the ultimate gift for anyone who loves numbers. It is, quite literally, the square root of 10. It includes slightly over one million numbers. CAUTION! Only mathematicians, math teachers and number freaks will

appreciate this book and what it contains. It's not meant for "regular people" or people who hate numbers.

About the Author Cain Marko is a mysterious character. He will not reveal anything... except to say that he is an unstoppable forward moving force.
