By heavyclassical If you're in the process of buying Stravinsky, you presumably don't need to be told that lots of his piano music is ugly, spare, and deformed (wherein, I suppose, lies some of its appeal). A recommended buy for the loyal Stravinsky fans out there, of which I count myself one. 7 of 7 people found the

following review helpful. Excellent editionBy Super MarioThis collection of Stravinsky's piano works is very high quality. The spine breaks gently to allow the pages to lie flat enough to sit properly on the piano's music rack. The paper is bright and smooth, and the type is very clear, sharp, and easy-to-read. And of course, the music is wonderful!
