Beware.....addictive but harder than average...By PaulaJust a word of warning to "normal" Sudokuits like me....I usually have no trouble with medium puzzles in most books and with a little work can solve most hard or difficult....However I don't think I'm even going to make it through the tricky section in this book. It is a little disappointing, because unlike one other reviewer..I DO want the button...but I suspect

it is out of reach of all but the best players...I agree that it is addictive...I haven't done any reading or quilting in the 3 weeks that I've had this book...it is the first thing I pick up when I have a few spare minutes and the last I put down at night...though the addiction and "fun" is sliding away as I complete a puzzle 4 or 5 times and don't "get it"....Until now I've been able to put the "clues" together (through the middle of the tricky section) even if I don't "solve" a puzzle from the context of the sentence or the combination of letters I do have....Once it gets more frustrating than fun though you may hear me scream from eastern Maine....0 of 0 people found the following review helpful. Now I found it (and for like 50 centsBy CustomerI've been wanting this book for years and gave up looking for a while... Now I found it (and for like 50 cents??) Maybe it makes me a total nerd but I'm in love and keep putting off homework so I can solve the puzzles0 of 0 people found the following review helpful. Four StarsBy BowButterfreeInteresting challenge, but is missing answer key and that sometimes hinders enjoyment

Move over, Da Vinci! Here comes a code-breaking challenge based on today's hottest puzzle craze and every reader who solves the mystery wins a prize! But it's not easy: First you have to complete 200 puzzles arranged in levels of difficulty from Easy to Cruel. Each of 100 numerical sudoku puzzles is paired with a wordoku puzzle using letters instead of numbers, and based on a key word or phrase. The combined answers to these puzzle pairs lead to a message containing a set of instructions. Unravel the instructions, and at last the solution appears. Solvers who follow this trail of clues to the end can proudly claim their prize: a button that's inscribed, I cracked the Sudoku Code!
