You can just feel the excitement in the air as the animals sing and dance on the pages. Children may benefit from going to see OKLAHOMA! before reading. Lacking the context of the song, the appeal is more limited to very young children. For those who are so inclined, there is sheet music printed inside the cover. Overall, the book offers a nice way to pass on a musical tradition to the next generation.0 of 0 people found the following review helpful. Great introduction to the musicalBy Pamela SwintMy 3 and 4.5 year old love this book, and it prompted us to listen to the full musical of Oklahoma, which they now also love.
