Excellent Bridge guideBy angela signalThis book was lent to me by a more experienced bridge player, but after starting to read it I realised I wanted to highlight portions of it etc, so thought I had better buy my own and am thrilled that I did.5 of 6 people found the following review helpful. Good book for beginners onlyBy Randy PennerLots of common mistakes. Beginners and Low Intermediate players will

benefit from reading it. 3 sections: bidding, declarer play, defense If you are Intermediate (for real, not just in your mind) this is far too basic. Good book for its intended audience.

A bridge guide aimed at the less experienced or social player who longs to improve but keeps repeating the same mistakes, often not knowing that they are mistakes. Andrew Robson, The Times Bridge Correspondent, is both a champion bridge player and an inspired teacher. At his bridge club he teaches and tutors and has acquired great practical knowledge about how people learn to play bridge. Based on Andrew Robson's Friday column in The Times, common bridge mistakes are presented with an outline of what actually happened and what should have happened. Along with every mistake is a handy tip 'If you remember just one thing..' which has proved very popular with The Times readers. The first section of the book, The Game, is a basic outline providing the key to playing a sensible game of Bridge, subdivided into Bidding, Declarer Play and Defence. Included within this are all the 'If you remember just one thing' tips that also appear in the main body of the book. The reader can either read The Game first, paying particular attention to the tips, or they can dip in and out of the main body of text, picking a common mistake at random, with the option of cross-referencing to the same tip in The Game section. Bridge is a growing enthusiasm and is now being played by a much wider age range it is no longer a game for those who have retired. This is a long-awaited first book aimed at the vast majority of bridge players who would like to avoid falling into the same trap time and time again.
