Book starts with easy puzzles and slowly progresses in difficulty. Use a pencil because these puzzles will definitely challenge you. Boy oh boy - am I increasing my vocabulary. I've never heard of some of the words for the more difficult puzzles. I keep my dictionary and/or tablet close when working these

out. Wish the puzzles were larger in size or came in a Large Print version. 1 of 1 people found the following review helpful. Lots of Fun! By Careful Consumer If you've never done this type of word puzzle before, think of a crossword puzzle that lets you put letters in when you don't have a clue about the word. It's different, but if you love word puzzles, you'll like this type of puzzle as well! I've ordered 4 of these type books so far, and I'll get more.... 1 of 1 people found the following review helpful. Fun puzzles By Jeanorma These books are nice because they are an alternative to crosswords that I always struggle with. I do all of the top pages then go back and tear them out to do the other side so I don't have to struggle with the binding.

The second book in the popular Codeword series: featuring 150 new Codewords the utterly addictive word puzzle which features daily in Times 2. This cracker of a puzzle is the perfect alternative to knowledge-based crosswords (you either know it or you don't, right?) and number-crunching Su Dokus. In this compelling collection of 150 brand-new Codewords, which for the first time ever are ranked in increasing levels of difficulty, you can really wrestle with your word power and test your logic to the max. The concept is simple. Each number represents a letter, so, starting with the solved letters, use your logic and vocabulary to reveal more letters, form words, and then crack the code!

About the Author Times Mind Games brings together the very best puzzles from the pages of The Times: Cryptic and General Knowledge Crosswords, Jumbo Crosswords, Codewords, all levels of Su Doku and mixed number puzzles and word-based games and quizzes.
