**Tetsuya Miyamoto : The Times KenKen Book 4 (Bk. 4)** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Times KenKen Book 4 (Bk. 4):

KenKen is the brilliant successor to Su Doku that's taken Japan by storm, selling over one million copies in less than a year. In collaboration with The Times, Collins the no. 1 puzzle publisher are proud to be bringing it to the UK. KenKen is a new type of brain-training puzzle based on logic and simple arithmetic. Perfect for all ages and highly addictive, KenKen puzzles challenge and entertain in an entirely new way! The puzzle was invented by a charismatic Japanese maths teacher, Tetsuya Miyamoto in 2004. The name comes from Ken which is the Japanese word for clever and KenKen translates as square wisdom. It's a new type of puzzle based on simple arithmetic and each puzzle involves some or all of the following skills: addition, subtraction, multiplication and division. As with Su Doku there are clearly defined levels for each type of puzzle from beginner and intermediate to advanced and the puzzles can be on any size grid, from 3 x 3 up to 9 x 9. The puzzles improve numeracy, logical thinking, concentration and perseverance. Can you KenKen?

About the Author Tetsuya Miyamoto established his own maths class in 1993 and is the founder and instructor of his own maths class in Yokohama, Japan. He pioneered the national success and popularity of the KenKen puzzle in Japan. He spent years inventing KenKen and other puzzles which he has used in his class to strengthen the 'thinking habits' of his students. He is the author of the Japanese books translated as 'The Art of Teaching Without Teaching Books 1 & 2' which introduce his unique educational methods and beliefs. He has regular
