It is the only game book you would ever need for your family if you get this one. This book alone easily replaces at least 3 of the books I've already got. Dice games, card games, classic board games, a few mass market games (Monopoly, Life, Pictionary etc...), games that need only paper something to write w/ games that need nothing but the people. Games for all ages. Party games for kids, families the more adult crowd (though nothing risque that I've seen). Indoor games outdoor games. Well rounded very well

organized. I love this have found instructions for games that I've not found in any other book. Well worth every penny then some. This book along w/ some dollar store decks of cards sets of dice may become my goto Wedding Gift or Christmas gift for new families I meet. 0 of 0 people found the following review helpful. A joy to own, read, and use for anyone who loves games! By BoardGameGeek reviewer EndersGameAs a gamer, I own a number of books with rules about different games, but this is one of my favourites. Edited by Jim Glenn and Carey Denten and produced by Reader's Digest, it is a very large hard cover book, with glossy pages, high quality graphic design and pictures, and an amazing amount of content. It's easily one of the most comprehensive and highly produced game compendiums that I've seen, and is a pleasure even just to browse. For those who enjoy card games, it has a decent section on the more well-known card games. In addition to a large section on Card Games, it also has sections on Board Games, Party Games, Games to Play Anywhere, Indoor Games, and Outdoor Games. Just a beautiful and helpful book all round! - EndersGame @ BGG

A must-have resource for every home, with over 200 games for the whole family; includes basic rules, easy-to-follow, detailed instructions, over 300 diagrams and illustrations, strategies, and tips. Learn how many players are needed, the game's level of difficulty, how long you can expect to play, and what equipment you'll need.

From School Library Journal Grade 5 Up This compendium is divided into categories: board games, card games, party games, games to play anywhere, indoor games, and outdoor games, and then subdivided into more focused categories within each color-coded section. Each entry includes step-by-step instructions, full-color photos, and clip-art decorations. Each one tells how many players are needed, what equipment is necessary, the difficulty of play, and how long a game typically lasts. The descriptions are concise, explaining exactly how to play in as few words as are necessary. The authors also provide the background and history of many of the games. Some of the entries will be familiar, such as Monopoly and Go Fish, but many are not as commonly known, such as Shogi and Botticelli. Games of skill, of chance, and of athletic ability are included. A useful and fun-packed volume. Cynde Suite, Bartow County Library System, Adairsville, GA Copyright Reed Business Information, a division of Reed Elsevier Inc. All rights reserved.
