It's bilingual and has many examples. It's also a history lesson, which I think is necessary to learn the style. My bass teacher also has this book, and it's an essential part of both our collections.0 of 0 people found the following review helpful. Cuban bass love!!By Steven T. VarnerThis book is excellent! It is bilingual and comes with two CDs that have Carlos playing the exercises in the book, as well as some historic Cuban recordings re-issued. It is a complete overview of the evolution of the bass' role in Cuban music, as well as a method book on all the different styles of Afro-Cuban bass playing.
