The small print of the tunes and the placement of two on a page makes reading very testing for a musician. Also the chord changes on some tunes,the bebop tunes in particular,are wrong. This book is good for the casual player,but one who is looking for decent representation of the music should look into other sources.1 of 1 people found the following review helpful. My favorite Jazz fake bookBy Robert Dumon PhotographyIt's my "go to" book for any gig where I want to play classic jazz standards, which means I take it everywhere. I bought this one for our piano/keyboard player, and the B-flat version for me (I play trumpet and flugelhorn). I highly recommend this book. It is THE fake book for jazz players.0 of 0 people found the following review helpful. I think this is going to be used a lot ...By Clark F. BlankenshipI think this is going to be used a lot.
