By Customer My grand kids love maze books. I have purchased many of them and this is a good one. They like the mazes to be really difficult and this one looks challenging. I recommend it for 8 to 12 year olds.
2 of 2 people found the following review helpful. Great selection of maze types and levels of difficulty
By Jen An awesome selection of mazes. It kept my 7 10 year old boys as well as my 45 year old husband entertained. The directions are clear and puzzles are orderly so that you can go from easy to crazy and learn many things in the process. Very nicely done.

By silvia hunkins for any child who loves mazes this is an amazing maze book that really requires some

skill or just a curious mind to use. never boring. great product

Entertain and challenge your brain with this bonanza of puzzles. Thirty mind-boggling mazes, created by a master maze designer, include labyrinths involving 3-D constructions, directional arrows, over-and-under structures, as well as key mazes, surface mazes, designated stops, and much more. The puzzles are designed around clever themes and are categorized by difficulty into five levels--from "No Brainers" that take about five to ten minutes to solve, to "Full Brain Overload," mazes that might take hours to find a solution. (A picture of a brain with varying amounts of gray matter appears next to each maze to indicate its level of difficulty.) There's also a "hints section" that provides clues for all but a few of the easiest puzzles. Use the hints section if you get stuck, but working the easier mazes will help you solve the more difficult ones. So grab a pencil and a-Maze yourself!
