Hoping it airs out as its supposed to be a Christmas gift but the smell is awful.0 of 0 people found the following review helpful. This book conveys the diversity and global aspect of PoGo, and through the author's intricate descriptions it made me feel like I was experiencing unique international sites in person. 4/5 stars because though I thoroughly enjoyed this book, it wasn't as good as the author's previous work (Escape the Game).0 of 0 people found the following review helpful.
