Djape : The Way Of Samurai before purchasing it in order to gage whether or not it would be worth my time, and all praised The Way Of Samurai:

Hours of challengeBy Sharon M.I've bought and rebought djape's books 1-5 after becoming ADDICTED with his weekly Washington Post puzzle in the Sunday comics about 15 months ago. I've tried other books/authors, but they seem like only number placing, versus needing to use different strategies. I work puzzles 2-4 hours a day. The boxes are large, but the answer key type is a little small...a small price to pay versus boring/too easy puzzles. I also love the varying degress of difficulty--level 1 and 2's for quick stoplight and traffic stops, and levels 3-5 for some real "brainburners". Enjoy!!1 of 1 people found the following review helpful. Five StarsBy Lovelax16My mother in law loves these. 4th one ordering for her1 of 1 people found the following review helpful. love theseBy B.
