By Eric Rexford This is a wonderful thing, I bought this originally for the soundtrack which is pretty epic. Then I read the storyline for the film and it was beautiful and I knew I had to own it. The book is well made and filled with stunning photo stills from the film and behind the scenes footage also features many amazing quotes. More films need to be packaged in sets like this, I'd buy more movies that's for sure. Also the film is good, watch it. 0 of 0 people found the following review helpful. Perfection if I ever saw it. By Customer Beautiful and wonderful short film by the masterful director Spike Jonze. I can't recommend this purchase enough. The packaging of this release has so much care and love put into it and one of my most treasured pieces in my collection. "I'm Here" is my favorite short film. I love you Spike! Please continue making masterpieces! 0 of 1 people found the following review helpful. Sweet, touching, and beautiful. By echo9 Spike Jonze's wonderful short film "I'm Here" is presented in this lovely book and DVD package. The book itself is alright and features mainly stills from the production with some concept art and quotes from the director and crew. I would have liked more concept art and behind the scenes information. The real reason to buy this is for the DVD of the short film. The short itself is a wonderful look at the lives of robots living in Los Angeles. I won't go too much into the story for fear of spoiling it, but I will say that it is incredibly sweet and beautifully done. You can find it online if you just want to watch it on your computer. The package also comes with an audio CD of the music from the film which is a nice bonus as there are a few really great tracks on it. I highly recommend this to anyone who's a fan of good filmmaking.

Filled with gorgeous photography, behind-the-scenes ephemera, and funny, inspiring interviews, *There Are Many of Us* celebrates the uniquely spontaneous making of Spike Jonze's new movie *Im Here*. The book includes an original CD soundtrack as well as a DVD of the 30-minute movie, *Im Here*, with special bonus content. *Im Here* which opened the 2010 Sundance Film Festival is a boy-meets-girl love story, set in LA, experienced by robots.

Praise for Spike Jonze's short film, "I'm Here" "It's haunting, beautiful, whimsical, and overwhelmingly heartbreaking all at the same time." Erik Davis, Cinematical "Director Spike Jonze has proven again that he can make magic in any format." Nicole Sperling, Entertainment Weekly "The film [is] bristling with ideas and imagination, but doesn't forget the heart either." Steven Zeitchik, Los Angeles Times "Strangely affecting, beautifully made, oddly haunting half-hour film." Nathan Rabin, The Onion A.V. Club
