The journey changed my skeletal understanding of autistic spectrum disorder by clearly illuminating that each person so affected differs from all others. I feel drawn to him in the way a curious student is drawn to a sympathetic pedagogue. The book captured and held my attention from first sentence to last. I feel a keen awareness of his gifts and am humbled by his ability to chart a course for us outsiders through the universe of his mind. I am stunned and in awe of his ability to bring the reader to a clear realization of autism. It is a brilliant book.Dennis Walker, USN/Ret.
