So I was looking for a bigger challenge. This book is filled with puzzles that even I can't solve. It takes me weeks to complete one puzzle and I sometimes hit that moment when I

realize I've got my numbers wrong somewhere. So I have to abandon the puzzle and start a new one. Like I say, I've done Black Belt Kakuro books before, and I like a challenging puzzle. But these puzzles are just too challenging even for me. 0 of 0 people found the following review helpful. Five Stars By Priya Cant do without these Kakuro books. 0 of 0 people found the following review helpful. Five Stars By P. Schwartz These are all wicked hard! It will take a long time to get through this book.

So here's the next level of challenge for fans of these addictive conundrums that feature little numbers throughout the grid. Solvers have to fill in the blanks with digits that add up to the little numbers. It's fun, and it stretches your mental muscles, too! How tough are you? These 150 kakuro are for top solvers only!
